Rhett Silver, MD, is an adventurer in every sense of the word. When he's not running with the bulls in Spain, diving deep into the Great Barrier Reef, competing in the Great Wall of China marathon, or snowboarding from a helicopter in Chile, he travels across the United States as an emergency medicine physician. He lives in New York City, which means New Yorkers shouldn't be surprised when his profile pops up on Avec. (Take note, ladies. He's a *doctor*.)
